Tesco Grants Programme

Our Sensory Garden Project

We are excited to share some fantastic news with our school community!

Our school has been successfully selected to take part in the Tesco Grants Programme. This means our project to create a school sensory garden will be put forward for a public vote in local Tesco stores.

From Tuesday 28th April 2026 until the end of July 2026, customers shopping in the following Tesco stores will be able to vote for their favourite community project:

Etching Hill Express (WS15 2NH) Rugeley Superstore (WS15 2HS)

Every time you make a purchase in store, you will receive a blue token. Simply place your token in the voting box for our school project!

Our Project: Sensory Garden

We are hoping to create a beautiful sensory garden within our school grounds. This special space will support children's wellbeing, provide a calm and engaging environment, and offer opportunities for outdoor learning and exploration.

What we could win:

1st place: £1,500

2nd place: £1,000

3rd place: £500

The more votes we receive, the greater the funding we can secure to bring this exciting project to life!

What happens next?

Voting will take place until the end of July 2026. The results will be announced in early September 2026.

How can you help?

We would love your support! Please remember to collect your token when shopping at Tesco and vote for our school. Encourage family and friends to get involved too—every token counts!

Important Assessment Dates

As we move into the summer term, we would like to make parents and carers aware of several important assessment periods taking place across the school. During these weeks, it is essential that children in the relevant year groups attend school every day, arrive on time, and are well-rested, as this will help them to perform at their best.

Key Stage 2 SATs (Year 6)

These statutory assessments will take place during the week commencing 11th May. All Year 6 pupils are expected to be in school for the full week.

Key Stage 1 SATs (Year 2)

Year 2 pupils will complete their assessments during the week commencing 18th May. These are carried out in a supportive classroom environment as part of normal school activities.

Year 4 Multiplication Tables Check (MTC)

The MTC will take place over a two-week period beginning the week commencing 1st June. This check assesses pupils' fluency in multiplication tables up to 12×12 .

Year 1 Phonics Screening Check

Year 1 pupils will complete their phonics screening during the week commencing 8th June. This is a short assessment to check children's phonics knowledge and reading skills.

We kindly ask parents to avoid booking appointments or holidays during these periods. If your child is unwell or unable to attend, please inform the school office as soon as possible.

Thank you for your continued support in helping your child feel confident and prepared.

Inset Day and Half Term

Please be reminded that Friday 22nd May is an INSET (staff training) day, and the school will be closed to all pupils on this date.

Following this, the school will also be closed for the half-term break. We look forward to welcoming children back to school on Monday 1st June.

Thank you for your continued support, and we hope you have an enjoyable and restful break.

Safeguarding

Our most important role at Chancel is keeping the children safe and protecting them from potential harm. Safeguarding the children is everyone's responsibility and is best achieved through working in partnership as a school community.

The safeguarding staff at Chancel are:

- *Mrs Palmer - Designated Safeguarding Lead (DSL)*
- *Mrs Watson and Mr Newton- Deputy Designated Safeguarding Leads (DDSLs)*
- *Mr Sparkes- Safeguarding Governor*
-

If you are worried about a child's well-being or believe they may be at risk of harm, you should report this concern to school, either by personal visit, email or telephone. You can also contact:

- *Staffordshire Families Integrated Front Door (SFIFD) - 0300 111 8007*
- *Staffordshire Police - 101 or 999*

If you are contacted by staff about a safeguarding concern, please do not be offended. We are sure you would rather we take every precaution to ensure the children's safety. We are also here to support you, should you have any concerns or difficulties.

If you're ever looking for reliable, up-to-date safeguarding guidance, the Safeguarding Network (safeguarding.network) is a website worth bookmarking. Although it's geared especially toward schools and designated safeguarding leads (DSLs), it offers many publicly available resources that can be very helpful for parents too.

What is Safeguarding Network?

The Safeguarding Network describes itself as a hub where safeguarding best-practice, training tools, and resources are collected for education settings, early years, care settings and other organisations working with children.

While some content is for members only, many articles and guides are free to access — they're designed to help everyone understand safeguarding risks and how to respond appropriately.

What Can Parents (and Carers) Access on the Site?

Even as non-staff, parents can find valuable information under the "Resources" (or "Safeguarding Resources") section — covering a wide range of issues that affect children's safety and wellbeing.

Some of the topics covered include:

Child-on-child abuse — information about what it is, how it can happen (both face-to-face and online), and what adults should be alert to.

Bullying, including its impact and why it must be taken seriously.

Online risks and "sharing nudes" — content about young people being coerced or pressured into sharing inappropriate images or content, and how to talk about that as a parent.

Child exploitation, including exploitation through trafficking, drugs, or other coercive practices — and how to recognise and respond to warning signs.

Risks within the home and outside the home, including neglect, domestic abuse, and other safeguarding issues that children may face in different environments.

What Parents & Educators Need to Know about APP & PLAY STORES

WHAT ARE THE RISKS?

Since the introduction of Apple's App Store and Google's Play Store, an estimated two million apps have been made available on each. Ofcom's 2025 media use and attitudes report states that more than half of children aged between 3 and 7 use apps or sites to communicate with each other, and, by the ages of 10 to 12, 45% of children are playing games on their mobile phones. This guide will help you ensure that children use the app stores and their content safely.

MALICIOUS APPS WITH MALWARE

Although Google and Apple must approve the apps on their official stores, inappropriate content sometimes slips through the net. For example, in 2025, the security company Kaspersky found that multiple iOS and Android apps contained screen-reading software, primed to look for passwords and stealing crypto-wallet recovery phrases captured in screenshots.

UNOFFICIAL COPYCAT APPS

Both official app stores contain copycat apps – often games – designed to look like popular rivals, mimicking their branding, layout and logos. While these will usually just offer a poor experience packed with ads as a quick money-making exercise, they're also more likely to be vessels for malware than the products they're counterfeiting.

INAPPROPRIATE CONTENT

As the App Store and Play Store are for all ages, there's a lot of content available that's inappropriate for children. Examples include apps that have references to alcohol, drugs, sex, violence or gambling. In general, these are sensibly age-rated, but social media sites such as YouTube and TikTok, which both have an App Store age rating of 12+, can be gateways to adult material.

PREDATORY IN-APP PURCHASES

App-making is a business, and most creators have found that 'freemium' software is the way to make money. That means the app will be free initially but will either require the user to watch ads or rely on them making in-app purchases. Some 'free' apps can be predatory, and there are plenty of examples reported where parents have racked up huge bills on behalf of their children's app activity.

ADDICTIVE BY DESIGN

Phone addiction is fast becoming recognised as a real concern, and apps are a big part of this. Freemium apps have a real incentive to keep children checking in every day in order to generate more ad views or secure extra in-app purchases. This can interfere with schoolwork and other offline hobbies.

SIDeloADED BANNED APPS

'Sideloaded' – the more complicated practice of installing applications on a device from sources other than the official app stores – bypasses Google's and Apple's security procedures; however, it is possible for tech-savvy users. This opens up huge risks – not just apps that would be forbidden by Apple and Google, but pirate ones packed with malware too.

Advice for Parents & Educators

ACTIVATE PARENTAL CONTROLS FOR APPS

Both Google and Apple have apps that can give adults greater control over children's phone activity. 'Screen Time' (iPhone) and 'Family Link' (Android) have a range of features, such as letting you set age-related restrictions on the app stores, require permission to download an app, set daily time limits on specific apps, and control real-world spending.

DO YOUR RESEARCH

If children ask permission to download an app, do your due diligence and research it. Read the app summary and search the internet for reviews and discussions to establish its legitimacy, safety and appropriateness – if it doesn't seem to be appropriate, look for safer alternatives instead.

LOOK BEYOND THE REVIEWS

App store reviews are helpful, but they are easily gamed, and some unscrupulous developers will pay for quick reviews to give their work perceived legitimacy. Take more than a cursory glance at listings by digging out the one- and two-star reviews and looking closely at the developer – for example, if they've published a lot of unrelated apps, that's a red flag.

TALK TO YOUR CHILD

Talk to children and make sure they're aware that apps can be risky. As part of a wider talk about internet literacy, ensure they don't download apps outside of the official channels, nor grant apps permission to access their camera, microphone, or photos without a good reason. Make sure they understand that in-game currency costs real-world money.
